- Tendencias en el desarrollo de repositorios
- Colaboración OA de OPIs en Europa
- Consideraciones

# Alemania: multitud de organismos públicos de investigación, red de repositorios de excelencia

The screenshot shows the eSciDoc.PubMan PROJECT website. At the top, there is a navigation bar with links for Login, Contact us, Policy&Disclaimer, and Help. A language dropdown menu is set to English. Below the navigation bar is a search bar with a magnifying glass icon, a 'Go' button, and links for 'Advanced Search' and 'Browse'. A checkbox labeled 'Include files' is also present. The main content area is divided into several sections. On the left, there is a 'START BASKET (0)' link. The central section features a heading 'PubMan 6.3.0 - an eSciDoc solution for publication data management' followed by a description: 'Provide persistent access to your papers and supplementary material! Compile your papers in your personal "Researcher Portfolio"! Benefit from the MPG service for long-term archiving!'. Below this is a 'Read more | Support' link. A search section titled 'Search for publications here' includes a search input field and a 'Go' button, followed by the text '... or browse through different categories.' Below this is a 'Short PubMan Introduction Video' section with a video player. On the right side, there is a 'Start' button and a 'Most Recently Released Items' section. This section lists three items: 'Prediction of unseen action: Dynamic updating versus static matching' by Springer, Anne (2011-10-20); 'Filling the gap: Dynamic and static representations of occluded full-body actions' by Springer, Anne; Prinz, Wolfgang (2011-10-20); and 'The meaning of movements. Crosstalk between semantics and kinematics' by Springer, Anne; Prinz, Wolfgang (2011-10-20). Below this is a 'Simulating galaxy formation' item by Steinmetz, M. (2011-10-20). The 'Latest News on PubMan' section includes two news items: 'BioMed Central Import is Fixed' by de kleinfe (19 Oct 2011) and 'Multiple Sorting in PubMan Exports' by de franke (30 Sep 2011). The second news item includes the text: 'One thing I owe to the community since the PubMan Days is the'.

# Francia: plataforma nacional, colección abierta, gestión descentralizada

- 2006: acuerdo entre CNRS, INRIA, INSERM e INRA + universidades y escuelas superiores

The screenshot shows the HAL website interface. At the top, there is a banner with the HAL logo and the text "articles en ligne". Below the banner, there is a navigation bar with links: Accueil, Dépôt, Consultation, Recherche, and Services. To the right of the navigation bar, there is a search bar and a language selector set to "version française".

The main content area is divided into several sections:

- L'archive ouverte pluridisciplinaire HAL**: A paragraph describing the archive's purpose.
- Prix Nobel de médecine**: A link to find articles by Jules Hoffmann.
- Neutrino - Opéra**: A link to an article about neutrinos.
- Derniers Dépôts**: A section with three tabs: Chimie, Économie et finance quantitative, Informatique, Mathématiques, Physique, and Planète et U. Below the tabs, there are three article previews with titles, authors, and brief descriptions.
- Déposer**: A form for depositing documents, including fields for "Identifiant" and "Mot de passe", and a "Déposer" button.
- Documents avec texte intégral**: A section showing the number of documents with full text (177709).
- Dépôts du jour**: A bar chart showing the number of deposits for different institutions: HAL, HALSHS, INRIA, INSERM, and TEL.
- Contact**: A section with contact information for support and HAL.

**L'ANR incite les chercheurs à intégrer leurs publications dans le système d'archives ouvertes**

La diffusion des publications scientifiques liées aux projets financés par l'ANR dans les archives ouvertes, en particulier HAL contribue à renforcer la visibilité et l'attractivité de la recherche française. Elle peut aussi aider à simplifier le suivi et l'évaluation en évitant la saisie multiple des informations et en rendant les documents aisément accessibles à tous les chercheurs impliqués dans les différentes étapes de ces processus. Dans le cadre de la préparation de son système d'information, l'ANR demande donc que, dans le respect des règles relatives à la propriété intellectuelle (propriété littéraire et artistique et propriété industrielle), et des règles de confidentialité inhérentes à des recherches, toutes les publications consécutives aux projets financés par elle soient d'ores et déjà intégrées par les chercheurs au système d'archives ouvertes HAL avec lequel elle collaborera. (contact ANR : pierre.glorieux @ agencerecherche.fr)

RCUK Common Principles on Data Policy

Home > Research Policy > Open Access

**Open Access**

As the public bodies charged with investing tax payers money in science and research, the Research Councils take very seriously their responsibilities in making the outputs from this research publicly available – not just to other researchers, but also to potential users in business, Government and the public sector, and also to the public.

Each Research Council publishes comprehensive information about its own research outputs and achievements. This information is located as follows:

Arts and Humanities Research Council (AHRC)  
Biotechnology and Biological Sciences Research Council (BBSRC)  
Engineering and Physical Sciences Research Council (EPSRC)  
Economic and Social Research Council (ESRC)  
Medical Research Council (MRC)  
Natural Environment Research Council (NERC)  
Science and Technology Facilities Council (STFC)

**Access to Research Outputs**

The Research Councils are committed to the guiding principles that publicly funded research must be made available to the public and remain accessible for future generations.

Following a wide consultation with stakeholders, RCUK published a position statement on access to research outputs in June 2006; individual Research Councils then published their own position statements (see links below).

The RCUK position statement is available [here](#) .

**Research Council position statements:**

Arts and Humanities Research Council  
Biotechnology and Biological Sciences Research Council  
Economic and Social Research Council  
Engineering and Physical Sciences Research Council  
Medical Research Council  
Natural Environment Research Council

# Sinergias en EUROHORCS y ESF

- Implementar una política común en acceso abierto a los resultados de la investigación y de acceso permanente a los datos científicos
- Requisitos de acceso abierto obligatorio a todos los proyectos financiados
- Transición de un modelo de pago por el lector a uno de pago por el autor/institución
- Mecanismos de control del cumplimiento
- Buenas prácticas
- Retención del derecho a difundir la investigación en abierto sin transferencia de copyright a terceros

# Armonización de políticas de acceso abierto en organismos públicos de investigación

- EUROHORCS: OA Working Group
  - Responsable OA en cada institución
  - El coste de la publicación es parte integrante del coste de la investigación
  - Colaborar con editores para armonizar las políticas de auto-archivo
  - Cláusulas sobre depósito en repositorios en contratos de licencias con editores
- ESF: Open Access Task Force en investigaciones biomédicas

# ¿Cuestiones a debatir?

- Planes de acción conjunta a largo plazo
- Infraestructuras e interoperabilidad técnica
- Cooperación entre equipos OA
- Modelos sostenibles de repositorios
- Cumplimiento de la Ley de la Ciencia y directivas internacionales
- Datos científicos en abierto
- El papel de las bibliotecas

# Gracias
